# BASIC DART
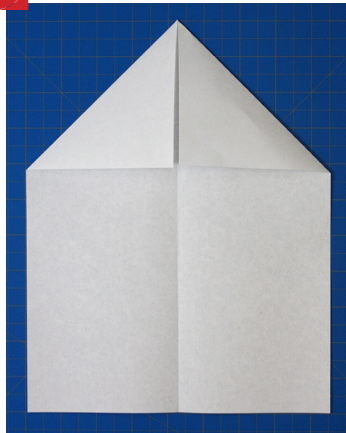

A basic design with decent distance and speed.
This is probably the most iconic paper airplane design,
and it is one of the easiest to fold. It flies very well too!
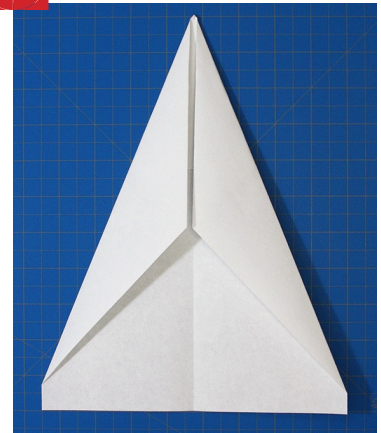

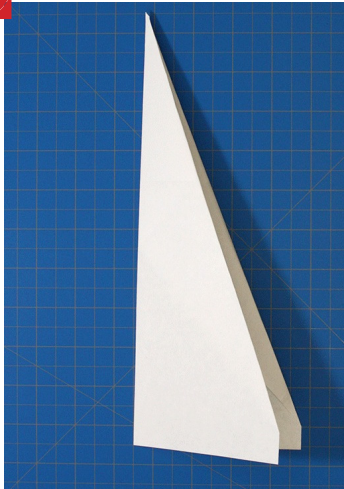

1 Fold paper in half.

**2** Unfold and then fold the top two corners to the center fold.

3 Fold the top edges to the center.

4 Fold the plane in half.

5 Fold the wings down to meet the bottom edge of the plane's body.

FINISHED AIRPLANE
