

more Bath FUN WITH Soap Jellies!

**ADULT HELP REQUIRED DUE TO
THE USE OF BOILING WATER!**

**IF YOU HAD FUN MAKING BATH
BOMBS YOU'RE SURE TO HAVE
FUN MAKING THESE SOAP JELLIES!**

SUPPLIES

- Medium bowl (big enough to hold the ingredients)
- Silicon mold
- Small glass measuring cup
- Whisk
- Disposable gloves (optional)

INGREDIENTS

- 1 cup boiling water
- 1 tsp Vitamin E oil
- ½ cup clear shower soap or dish soap
- 1 tsp salt
- 2 packets of unflavored gelatin (NOT Jello)
- Food coloring (to color your soap)

Bring 1-cup water to a boil and carefully pour in to the bowl. Whisk the salt and gelatin in to the water until dissolved. Add the soap, coloring, and Vitamin E oil. Pour carefully in to the molds (if you get bubbles forming on the top simply spritz the tops with rubbing alcohol.) Place the molds in to the fridge overnight (or a day or two if you want them to set really well.) Pop out and enjoy using! These will jiggle a bit and be softer than a regular bar of soap so have fun!

If you like a little scent in your soap you can add a “tch” of essential oil in whatever fragrance you prefer.
