

# ROCK to \$100

**A GAME THAT WILL HELP YOU TO RECOGNIZE DIFFERENT DENOMINATIONS OF CURRENCY WHILE ALLOWING YOU TO COUNT, ADD AND TRADE MONEY.**

**MATERIALS NEEDED:**

- Printed play money
- Pencil/pen and paper
- One die (that's a single dice)

If you don't have any dice - print off the dice pattern from our First Citizens Power Saver Activity page and make your own!

**INSTRUCTIONS:**

- 1.** Print the play money and cut apart. Each player gets a blank sheet of paper and puts their name at the top.
- 2.** Appoint one person to be banker, they are in charge of the money.
- 3.** Each number on the die represents that number of dollars. Take turns rolling the die and adding the dollars together until one person reaches \$100. (For example: you roll the die and it lands on a three, that means \$3 and you place that amount on your sheet and collect \$3 from the banker. Next turn you roll a six, you add six to your total and collect \$6 more dollars. As you get more \$\$ you can trade it in for bigger denominations from the banker. Example: five \$1 for a \$5 bill and two \$5 for a \$10.)
- 4.** This continues until one of the players reaches \$100. Not a lot of time? Play to \$50 or for a SUPER QUICK game just \$25!
